Justice Knight May 21, 2020

Season 1 Episode 15

The Sword in the Zone

Ultraverse Keith is in a library in the Ultraverse. He sits at a computer desk and he looks over books on the different universes. Ultraverse Keith sees a picture of a large marble that is yellow with purple streaks in it and another large marble that is dark red with dark blue streaks running down it. Keith said, “What’s this? Two universes that contain vast amounts of negative energy were stolen from the universe temple fifty-years ago and were never recovered?” Keith reads some more and it said, “The people of those universes are likely to be suffering from energy shortages and other painful means as a result of misuse.” An illustration is shown of people in those universes living in poverty and suffering from energy loss. Keith said, “I know what I will write my report on.” Keith types out a report on the computer.

Keith presents the report to class. The instructor said, “You may make such big bold claims as that they are being used for bad but, what brings you to such a conclusion as that?” Keith said, “Why else would anyone want to steal a major source of negative energy. Only a super villain would want something like that.” The instructor said, “How could you prove this?” Keith said, “I am still searching for that proof.” The instructor said, “Until then, I give you an F on your report until you can prove your points to me.” Keith said, “I will.”

Keith is back in the library and he goes over more reports and texts from various sources. Keith’s friend, Roswell, the anthropomorphic parrot (in uniform as an Ultraverse Monk) zips next to Keith. Roswell said, “Can I help you with anything?” Ultraverse Keith said, “I am trying to solve the mystery of those universes that were stolen fifty-years ago. I know they are in dangerous hands and they need to be saved.” Roswell said, “You really are making such major convictions over two universes. How do you know they are not in a museum somewhere?” Ultraverse Keith said, “My instincts tell me otherwise.” Keith and Roswell scroll down articles and they find nothing that helps them. Then they come across a web video site. Roswell said, “These are those web videos. I love watching these videos. Especially the one with that guy that falls off the ladder. That one’s a classic.” Ultraverse Keith said, “We don’t have time for goofing off right now. We need to…” Keith and Roswell’s eyes go big and they see a video on the website of King Arcturus with the two universes and they are in his scepters. He uses them to generate beams that turn people into stone. Arcturus turns his father Bootes into stone. Arcturus uses the power of the universes to make people bow down to him. He uses them to get more money off people in Azureis. Roswell said, “I know that Arcturus. He is the King of Azureis and he is the richest man in the universe he’s from.” Keith said, “That guy’s rich and he still steals from people like that?” Roswell said, “He’s the king and he has those two powerful universes at his disposal so… yeah… no one has the guts to stand up to him.” Keith said, “I will. I will defeat this Arcturus and I will show the world who’s boss. I will earn the

respect from my instructor after this. You want to come with me?" Roswelll said, "I would like to, but I've got to watch the library. You could find your other friends to come along with you." Ultraverse Keith said, "No one would believe me. I guess I have to do this myself." Ultraverse Keith creates a portal and he jumps in it.

Arcturus is in his palace surrounded by rich people from all over the world. They admire his work and they admire all the rich things he has in his palace. Arcturus said, "Awe as you will. You will never meet another person with more stuff than yours truly." Ultraverse Keith is standing at the top of the luxurious stairs and he looks down at Arcturus. Keith said, "This is perfect. I can make Arcturus look like a fool in front of all the world's rich people." Ultraverse Keith jumps and grabs onto the chandelier and he swings around on it and he jumps off and he lands on the floor next to Arcturus. A rich guy said, "Is this a friend of yours?" Arcturus sees Keith and he said, "Ah yes. You must be one of those fruity monks I've been hearing about. I hear you guys are civil to everyone in your so called, Ultraverse." Keith takes out his sword and he aims it at Arcturus. Keith said, "We are only civil to those that are respectful. There is nothing respectful about you." Arcturus and all his rich friends laugh at him. Arcturus said, "C'mon. Grab yourself a drink. There is plenty to be proud of." Keith gets a strong grip on his sword. Arcturus said, "Is this how you want to play? I guess I just have to go with you."

Arcturus takes out his sapphire sword and he duels Keith. Keith clangs his sword against Arcturus' blade. Arcturus swings his sword the other way and Keith blocks it. Keith jumps over Arcturus and he tries to slash Arcturus from behind and Arcturus blocks it. Arcturus said, "I think sword fighting is a bit juvenile for someone of our caliber. How about this?" Arcturus drops his sword and he takes out the two universes and he hovers in the air. He fires energy from both of them at Keith. People and civilizations in the universes are panicking as their worlds are being destroyed by Arcturus using the universes as an energy source. Everyone in the palace is cheering on Arcturus. Keith blocks the energy blast with his sword. Keith deflects the energy back and it goes flying back at Arcturus and Arcturus spins out of the way and the energy hits the ceiling and it breaks that part of the ceiling. Arcturus said, "You really want to be defeated, don't you?" Keith said, "I will let you go once you give back those two universes you use as weapons against your people." Arcturus said, "Sure thing." Arcturus descends to the floor and he holds the two universes up to Keith. Arcturus said, "Go ahead and grab them." Keith is about to grab them and Arcturus said, "Psyche!" Arcturus throws them upwards and he grabs them and he fires them at Ultraverse Keith. Ultraverse Keith tries blocking it with his sword and his sword disintegrates into dust and the energy hits Keith and his robes burn down and he is left sitting on the floor in his boxers. Everyone points to Ultraverse Keith and laughs.

A ruby red sword is thrown into the chandelier and it breaks and the lights go out and the place is pitch black. Someone pulls a switch in the breaker room and the lights come back on and Ultraverse Keith is gone. Ultraverse Keith wakes up in a bed in Justice Knight's lair. Krysta brings in a tray filled with food and drinks. She puts it next to Keith's bed. Krysta said, "I heard you got quite a beating out there by that Arcturus. Keith said, "I can't believe that fool still has those two universes. He is freezing people into stone with them. Worst of all, there are

universes worth of people in those orbs and they are all suffering because of Arcturus." Krysta said, "That does sound pretty bad. I'm sure the master will be good at teaching you somethings before you go into battle again." Krysta leaves the place and Justice Knight enters. Justice Knight said, "Ultraverse Keith. I've heard of you before. I heard you tried to single-handedly take down Arcturus. You were obviously defeated. That first sentence already implied you were defeated. Almost no one has ever defeated Arcturus single-handedly before. I have been fighting crime and defending Azureis for hundreds of years and I have never defeated Arcturus single-handedly before. You actually did last for quite a bit. I am impressed to a small extent." Keith said, "Do we have a plan to get rid of Arcturus and to bring those orbs back into the Ultraverse?" Justice Knight said, "I wouldn't go there just yet. Before you do that. You need some training. I have a course plotted for you out in the woods. Krysta and Yuio will accompany you on this training since they can learn some things too. Once your training is complete, we can then try another swing at Arcturus. I have a plan this time around. I also know about those universes and since I am Justice Knight, I stand for truth and justice to everyone and everything regardless of what universe it is from. That is why I am on your side of this. Every stolen thing needs to be delivered back to its rightful owner."

Keith is out in the woods in a training suit that has Justice Knight's logo (Mystika's Signature) on it. Keith is also with Krysta and Yuio and they have walkie talkies that communicate with Justice Knight. Keith said, "Do I get a sword or anything?" Justice Knight said, "You need to learn to use yourself as a weapon before you can have a weapon of your own." Keith said, "I've heard that one before." Justice Knight said, "Let the course begin."

Keith, Yuio, and Krysta run down the trail. They get to a wide-open passage surrounded by trees. Yuio said, "This place looks big and wide. I want to play around in it." Yuio is about to jump and zip through the path and Krysta grabs onto his tail and stops him. Krysta said, "This is most likely a trap." Keith said, "It probably is." Keith finds a piece of debris and he picks it up and he throws it down the path and arrows fly into it and they get stuck in it and they keep firing and the piece of debris is destroyed." Yuio said, "Are we going to be needing goofy kung-fu moves to get out of here?" Krysta said, "I've studied some martial arts styles to get through this, watch." Krysta jumps in the air and arrows fly at her. She zips around them and more are shot at her. Krysta jumps over those ones and she walks on her right index and middle fingers out of the wide-open part of the path. Krysta said, "It's not that hard." Yuio looks at Keith and Yuio said, "You go next." Keith cracks his knuckles and Keith walks normally with normal speed and all of the arrows miss Keith. Keith makes it to the end of the wide-open path. Keith said, "I barely did anything there but that meditative walking I was taught at Monk Academy." Yuio looks scared. Krysta said, "Come over here you big baby." Keith said, "There's nothing to it." Yuio takes a slight step and arrows come shooting at him. Yuio spins around and runs around like a madman and he is quick and fast and he dodges all the arrows and he makes it to the end. Yuio said, "How many times was I shot?" Krysta said, "None." Yuio said, "That's good."

The three of them continue down their path and they dodge traps and they fight off obstacles and they make it to a cyan sword that is stuck in a tree stump. Keith said, "Is this the end of the course?" Yuio said, "This better be and that sword better be our reward." They head

for the sword and a robot bug stops them. The robot bug said, “Where do you think you are going?” Keith said, “This is just a training ground set up by Justice Knight.” The bug robot said, “Justice Knight? You mean that freak that goes around serving justice to people?” Krysta said, “We are his associates.” The bug robot said, “Ah, good. It looks like he sent a bunch of misfits to take his training mission. You guys won’t get past me, the legendary, Bugbot.” Bugbot extends his many arms and legs and wings and he aims some blasters out of them. Bugbot said, “Don’t think about getting past me.”

Yuio jumps on Bugbot and Bugbot is weighed down and Bugbot shoots Yuio off him. Krysta does some kung-fu moves on him and he grabs onto both of Krysta’s arms and legs. Keith uppercuts the Bugbot and he goes spinning around and he releases Krysta. Bugbot is spinning through the air and he lands in the globs of fat on Yuio. Yuio brings Bugbot down. Bugbot said, “You got me. How are you so fat? Let me go?” Yuio said, “When you join us we will let you go.” Keith said, “You look like someone that can make a powerful ally in our cause.” Krysta said, “He has a point. Also, what is with that sword over there in the stump?” Bugbot said, “Justice Knight told me to guard that sword with my life.” The heroes crowd around the tree stump that has a sword in it that has a cyan colored blade. There is a metal plaque that reads, “Cyan sword of Redemption.” Krysta said, “I’ve never heard of this one before. Let’s see…” Krysta tries lifting the sword out of the stump and it is stuck there. Krysta tries pulling hard and she pulls an exaggerated muscle. Krysta falls off the stump and lands next to it. Keith grabs a firm grip on the sword and he pulls it out of the stump and he holds it high in the air. Krysta said, “I bet it has something to do with being worthy of lifting the sword. Only worthy people can lift the certain colored swords. You must be worthy.” Keith said, “I know I am.”

The heroes are back at Justice Knight’s lair with Bugbot and Keith presents the sword to Justice Knight. Justice Knight said, “Why are you showing this sword to me?” Keith said, “You planted that sword there and you set up an entire training ground around it. I think it is yours and we were just merely bringing it back to you. We have already proven we don’t need swords.” Justice Knight said, “You are skilled with swords. I know that as a fact. I just wanted to see how my regulars, Kysta and Yuio would do there but there was never any doubt that you would finish that training with flying colors. That sword you found is the Cyan Sword of Redemption. It can only be lifted by people that were once misguided and have been redeemed to a path to better. I think your history may have something to do with that. I heard you once tried to rule the world once with storybook characters and through time travel. You were defeated and you eventually learned your lesson from some traumatizing experience that supposedly happened and now here you are. You are a real hero. You know the meaning of serving others for a greater cause. You are over what your former self has done. I am proud of you for that. We all are. I have a few presents in store and we can go and get those universes back. That sword is yours by the way.” Keith looks at the sword in his hands.

Arcturus is in his palace and there are more rich people around and celebrities and entertainers. Justice Knight enters the foyer of the palace where everyone is and Justice Knight is dragging a large present. Arcturus said, “Justice Knight? What is this? Is this a present that says you are going to surrender to me and give up being Justice Knight for good?” Justice

Knight said, “It may say the opposite.” Justice Knight takes out his sword and he cuts the front of the present off and it reveals Bootes underneath. Arcturus said, “Father? How did you get unfrozen? How did this happen? How?” Justice Knight said, “We’ve got more than you think. Show him.” Krysta, Yuio, Keith, and Bugbot jump from around a corner. Arcturus said, “This is just another rematch then, is it?” Yuio said, “Universes forever!” Yuio jumps at the universes in the scepters Acturus holds onto. Yuio tries to break them off and Arcturus shakes off Yuio and he freezes Yuio in stone with the universes. Bootes said, “That is a useless thing to do since they have technology to unfreeze stone people.” Bootes grabs out a book filled with information on Arcturus’ plans. Bootes said, “People in Azureis may not know how to stand up to you but there are plenty of other people in the world and in the Ultraverse that are willing to step up to you. Arcturus said, “You!” Arcturus generates a powerful energy blast and he fires it at Bootes and Ultraverse Keith hits the blast with his new cyan sword and the blast is sent back at Arcturus and Arcturus blocks the blast with the two universes and they are broken out of the scepters.

Keith grabs the universes and Justice Knight picks up Keith and he throws Keith to the top of the stairs. Arcturus tries to run for the stairs and Justice Knight stops him. Justice Knight has his sword drawn out. Arcturus draws out his sword and he duels Justice Knight again. Justice Knight spins and keeps swinging his sword in one direction at Arcturus and Arcturus keeps blocking it. Arcturus looks upwards and he sees Keith with the two universes. Arcturus smashes Justice Knight’s foot and it does nothing and Justice Knight still blocks Arcturus. Justice Knight said, “You are weak without those universes and I just enforced my armor with titanium alloys.” Arcturus said, “Why do you always win? Wait… you don’t. You just win because you have help from someone else.” Bugbot is in the basement and he turns a bunch of knobs and he turns up the pressure to the water tank. The water tank explodes and the foyer of the palace is flooded. Justice Knight floats to the top of the water flood and Arcturus grabs onto a platform and he jumps on it. Arcturus said, “I see an easy passageway to Keith.” Arcturus jumps over to Keith and he climbs around the railing and he confronts Keith. Arcturus said, “You…” Keith blocks himself with the sword and Arcturus tries to rip it out of Keith’s hands. Arcturus said, “This sword cannot be lifted by me.” Keith said, “Only worthy people can lift it.” Arcturus said, “If that’s the case…” Arcturus gets his sword and he duels with Keith. Keith has both universes in his oversized pockets. Arcturus cuts one of the pockets and grabs the universe and he cuts another pocket and grabs that one.

Arcturus raises the two universes up high and he said, “I have the two universes now!” Justice Knight swims to the upper railing and he jumps over it. Justice Knight dashes for the universes and Arcturus spins and Justice Knight is lured into a wall and he smashes into it and cracks the wall. Krysta swims to where Yuio is and she places a device on Yuio and the stone breaks off him leaving him free. Krysta jumps on Yuio and they fly to where Arcturus is with the universes. Krysta tries to snag them off him and Arcturus rolls down and Yuio hits the wall. Arcturus said, “You guys are a bunch of idiots. I have the greatest power in the universes and I…” Arcturus tries activating them on the heroes and the universes do nothing. Arcturus said, “What gives?” Yuio said, “Check the batteries perhaps.” Keith said, “You used the universes up so much that they are without power.” Arcturus said, “How is this possible?” Keith said, “Because I am smarter than you.” Bugbot hovers over to Keith and he lands next to Keith. Bugbot reaches in a compartment and he pulls out the two universes. Bugbot said, “I got to

carry the originals." Bugbot waves them around and he fires a beam at Arcturus and Arcturus is turned into stone and Bugbot is sent flying across the room and he smashes into a wall and he shatters into pieces. Keith takes hold of the universes and he waves them around and a portal opens and Keith jumps in.

Keith is in his lecture class again and he presents the class with the universe marbles and video footage of Arcturus using them for his own will. Keith said, "I also picked this up." Keith shows the class the Cyan Sword of Redemption and the class awes. The instructor seems impressed. The instructor said, "Arcturus really did have the universes. I thought it was some myth someone came up with." Keith said, "I also have a special guest to further confirm this story." The door to the lecture hall opens and Justice Knight enters. All the monks and the instructor have their eyes go big as Justice Knight takes the center stage. Justice Knight said, "It was a battle but we all pulled together and won. I even taught your very own, Keith a lesson or two on how to be a great redeemer." The instructor goes to Justice Knight and he said, "Before you leave, may I have your autograph?" Justice Knight said, "Sure why not?" The whole class runs for Justice Knight as Justice Knight signs a bunch of autographs.

In the universes that were used by Arcturus, people celebrate and have parades and everything looks like it has changed for the better.
